

Background

The following evidence depicts the events of the past few days between me (Hazel, 16 years old) and 0x22 (22 years old, head developer of Future Client), as well as wider tendencies that 0x22 has displayed that I believe should be brought to the community's attention.

NOTE: Many usernames have been censored because they contain the IRL names of the people involved in this situation. 0x22 also deleted many of the messages related to grooming, with the only archives being the screenshots I took at the moment.

Proof of this accounts presence in the official Future Beta discord:

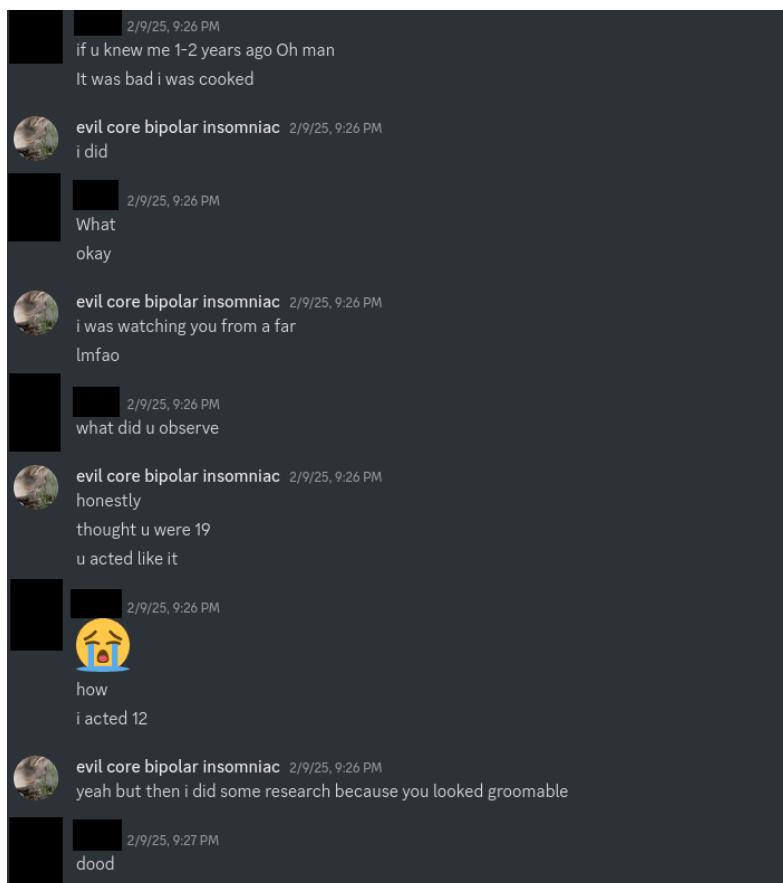

<https://youtu.be/pdEM62nfQSI> <- Screen recording of some of the DMs, to back up the validity.

Predatory Behavior

For a long time before 0x22 made any blatant moves, there were numerous attempts to gain my trust and affection that stand out. They would use their power as a developer of Future Client to spoonfeed me things such as Future Beta, a coloured name in the Future IRC/Forums, and personal promotion on the main Future home page (Something which they have barely/not done for anyone else). This, combined with constant affection and attention over the course of months was 0x22's way of attempting to win me over.

We were also very close to each other IRL, living about an hour away from each other. 0x22 knew this even before we started talking, and said that they would "watch me from afar".

Proof we met up (this audio is from when I was in their house):

0x22 would frequently ask to meet up more, complaining that they missed me and getting mad whenever I didn't want to on any given day.

The screenshot shows a messaging interface with a search bar at the top containing the text "miss you". Below the search bar, it says "21 Results" and has buttons for "New", "Old", and "Relevant". The results list 21 messages from a user named "@ evil core bipolar insomniac". Each message includes a small profile picture, the user's name, the timestamp, and the text "I miss you". The timestamps range from "3/12/25, 3:43 AM" to "2/26/25, 5:43 PM".

I miss you
can we meet soon :c

NOTE: There are many more instances of 0x22 saying these sorts of things, far too many to list here.

Pictured: a (now deleted) conversation between me and 0x22, where 0x22 says that they are romantically interested in me, more so than their long-time partner.

They had said that they loved me many times before this, and while it was a bit odd (especially how often they would say it, countless times a day and every night before sleeping), I always took it as a platonic display of affection.

This behaviour is problematic for 2 main reasons. Number one, there is a significant gap in age, maturity, and power, with 0x22 being a 22 year old self-sustained business owner, and me being a 16 year old who is a customer and representative of theirs (having 2 Future Beta/Moderator accounts and a significant role in community representation). The 6 year age gap and circumstantial differences make this a blatantly inappropriate relationship to try and start. The second reason is that, at the time of 0x22 saying that (March 12th, 2025), they were in a committed relationship, which had lasted for years up to that point. 0x22 had lived with their girlfriend for a few months, and there were talks of marriage.

0x22 had been inappropriately affectionate towards me to some extent for a very long time (under the guise of platonic affection), with many people in our circle taking notice.

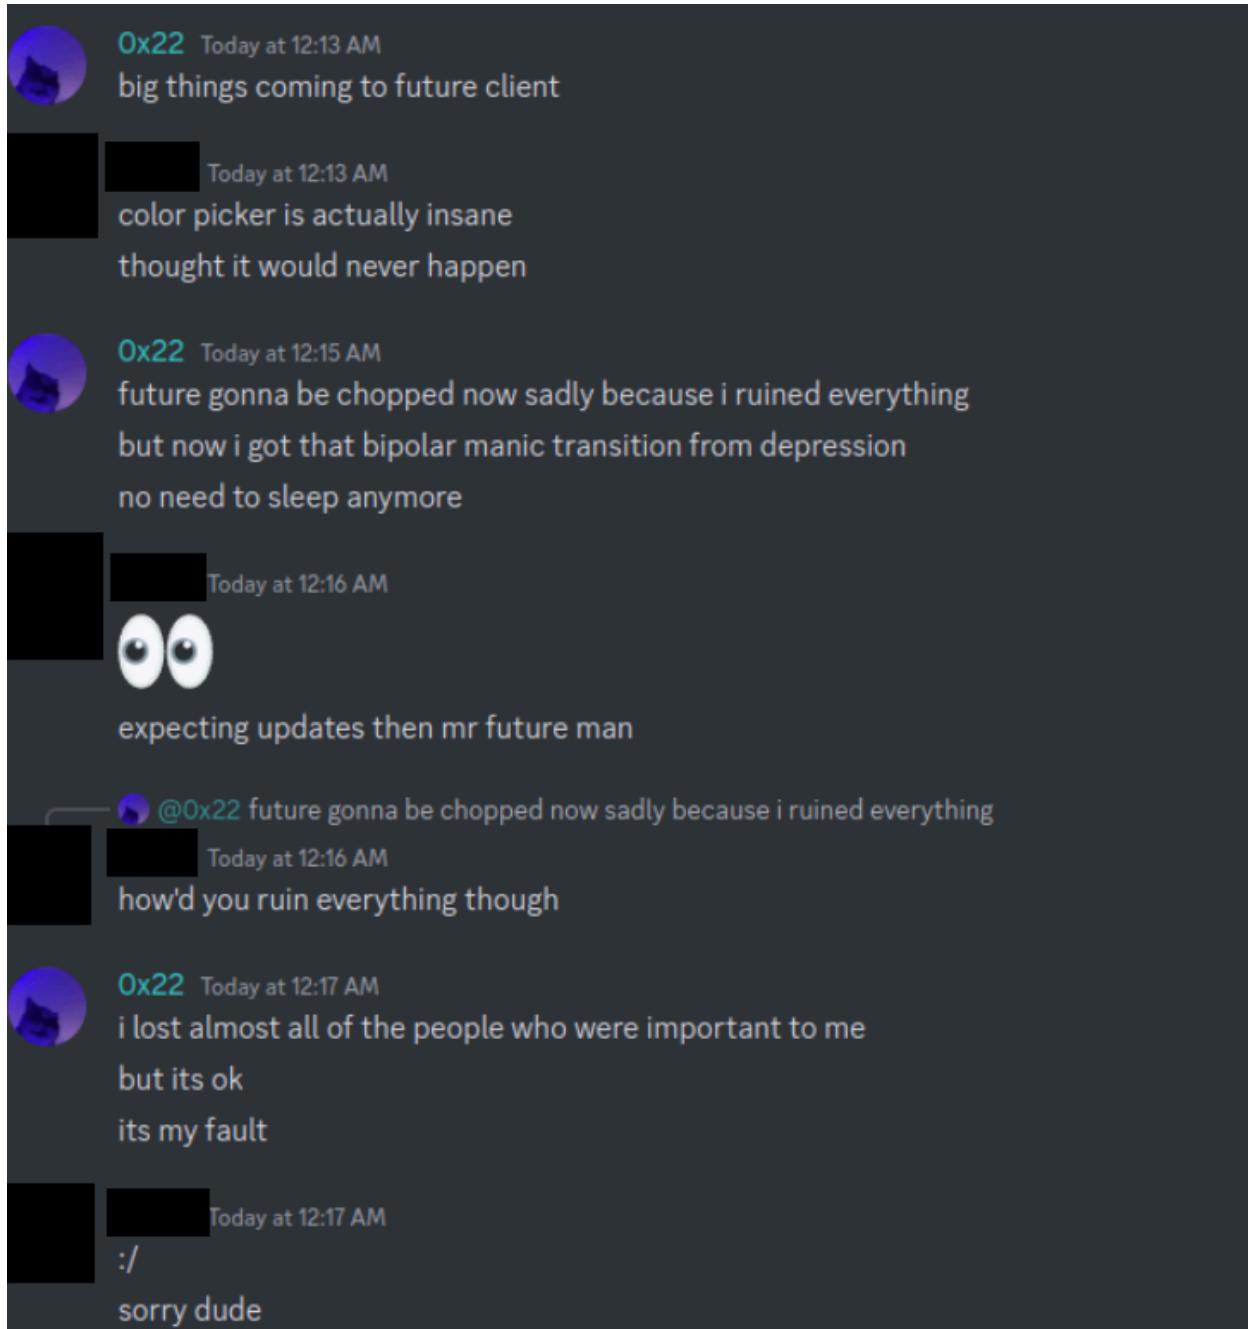

Pictured: An old exchange between me (milkshake) and 0x22 (kunzite). They expressed the sentiment that im “not too old” on multiple occasions.

Some additional context from the night that 0x22 told me about their romantic feelings for me:

Pictured: A conversation in the Future Beta discord that took place a few days after 0x22 confessed to me, where they talk about how they “ruined everything” and that it’s “their fault”.

Stalking

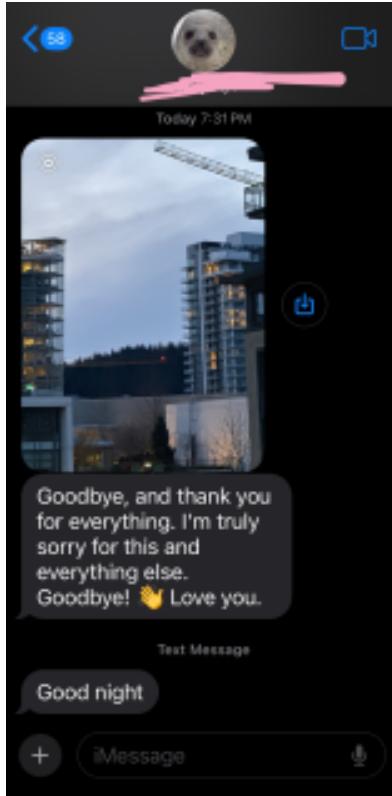

Shortly after 0x22's confession, they began to stalk me. I stopped responding to their messages, so they resorted to visiting my house IRL. I saw 0x22 while walking home, right in front of me, and it was easy to recognise them due to the distinctive figure, hair, backpack, water bottle, and outfit that they had worn when we had met up previously. **PICTURED BELOW**

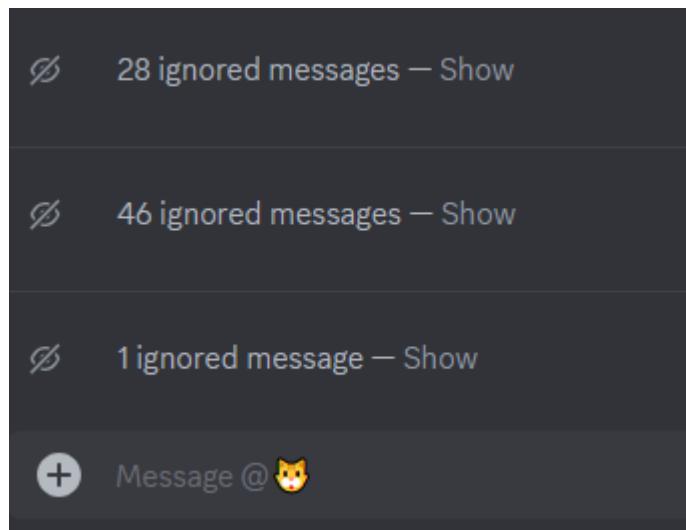

This is a picture of them walking from the bus stop to my house, passing by my school. They took a picture of my school, before continuing on their way to my house.

This was in-line with obsessive messaging which had occurred in the same time period. Pictured is a text that was sent an hour before they appeared at my house:

0x22 sent dozens of messages over discord as well, in the time directly after 0x22 expressed romantic interest. Most of these have since been deleted.

Past/Other Questionable Behavior

0x22 has been historically known to specifically target transgender members of the community, using their status as a Future developer to manipulate people. One such example is Emily/Azuralolx3. 0x22 met them on grim.crystalpv.cc and added them on Discord, and, within a few minutes of meeting them, gave them Future Beta despite them not being a Future user, or a prominent member of the community. From there, 0x22 cultivated a dependent relationship where Emily depended on 0x22 for emotional support.

Emily estrogen

Sent her needles and estrogen

They bought estrogen for countless people online, presumably to gain some level of trust or control over them. Pictured here is a screenshot from another 16 year old, who was bought estrogen by 0x22 against the will of their legal guardians.

What Should be Done?

The most important thing that should come out of all of this is 0x22 being deplatformed. As long as they have this influence and status in the anarchy community, they will continue to use it to manipulate and groom people. The most important thing you can do is stop supporting 0x22 and Future Client in general. Stay away from using

the client, or buying it, and discourage those you know from doing the same. The behaviour that 0x22 has continued to exhibit is unacceptable for such a prominent and longstanding member of the community.
